

THE ESCALANTE LOOP

Website Analysis

A Pitch for a Stronger Online Presence

Gloria Hansen

The Current Site

What's working

- Local community focus is clear
- Events are listed and actively maintained
- Each business has its own dedicated page
- Authentic personality — not corporate or generic
- Site is secure and browser-trusted

Opportunities to Improve

- No consistent colors, fonts, or visual style
- Too many navigation items making the site overwhelming and hard to use
- No consistent header or footer
- No online form or clear path to rent the space
- The site is not optimized for mobile visitors

The Vision

A site that works as hard as you do; welcoming visitors, informing locals, supporting small businesses, and renting beautiful spaces.

Clear Identity

Brand colors, consistent fonts, and a logo that reflects the landscape and community spirit of Escalante.

Rent Spaces

An online form so potential tenants can reach out directly.

Simpler Navigation

Fewer pages, smarter structure. Visitors find what they need in one click.

Mobile-friendly

Most visitors will find you on their phone. The new site will look great on any screen.

Events at a Glance

A clean, always-current events section with full dates and details.

Key Features to Add

Global Header and Footer

Consistent navigation and contact info on every single page.

Event Section

Clean event cards with full dates, times, and descriptions. Easy for you to update in Wix.

Rent the Space Form

Online inquiry form — name, dates, intended use, contact info.

Business Showcase

Each business gets a clean card with their specialty, hours, and booking form.

Mobile Design

Designed to look great on phones. Most visitors will look you up via a mobile device.

Brand Identity

A cohesive palette, font system, and visual style that reflects Escalante and the Loop.

Questions for You

Your answers will help decide every design decision.

1

Who is the main audience?
Locals, tourists, a bit of both?

2

What do you want most
people to do when they visit
your site?

3

Are you using Wix? If not, how
are you coding/ hosting your
site?

4

Do you have existing brand
colors or logos you would like
to keep?

5

Do you have professional
photos of the space and
businesses?

6

Are there any sites you love
the look or feel of?

Next Steps

1)

Content gathering

Photos, text, business info, hours, and social links. The more you provide, the better the result.

2)

Mood board & wireframes

I'll share a visual direction and page layouts for your feedback before any building begins.

3)

Build in Wix

Full site build with your approved design. You'll review at each stage.

4)

Review & revisions

One round of revisions based on your feedback to get everything just right.

5)

Launch & training

Final walkthrough, training on how to update events yourself, and go live.
