Brigitta Borrego *License Massage Therapist*

A Bit About Me

Brigitta's journey into the healing arts began under the Arizona desert sun. Spending summers with her grandparents, she was introduced early to the world of naturopathic wellness from brewing tinctures, cooking whole foods, to visiting restorative hot springs of New Mexico. These formative experiences instilled in her a deep-seated belief that health is a holistic choice encompassing the mind, body, & soul.

Brigitta trained at the esteemed Sedona School of Massage & continued her education & experience by working in spas & healing centers throughout the Sedona area. Brigitta graduated in 2026 with a clear intention: to create a safe space where people can let go of stress & reconnect with themselves.

As a Licensed Massage Therapist, she bridges the gap between traditional wisdom & modern science. She combines skillful manual therapy with a calm, compassionate presence. Brigitta views the human body as a vessel of unlimited potential with a natural ability to heal itself. She recognizes that emotions can often become "stuck" within the physical form & uses the power of touch to help clients release tension & restore internal balance; releasing what no longer serves, & awakening the beauty of being alive. Brigitta believes that touch, presence, & compassion have the power to soothe the nervous system, ease pain, & invite peace back into the body. Her practice is a welcoming sanctuary where discipline, self-compassion, & clinical expertise meet to support you on your wellness path.

Brigitta brings expertise in a wide range of modalities, including Swedish Massage, Connective Tissue, Trigger Point Therapy, Prenatal Massage, Polarity Therapy, Thai Massage, Sound Healing, Tuning Fork Acupressure, & Cranial Sacral Therapy. She offers the following extra massage services: aromatherapy, cupping therapy, hot stone therapy, hot towels, & CBD/arnica oil.
